

Order in Bulk. We Store It. Ship On Demand.

Lock in bulk pricing on your branded apparel and promo products. We keep your inventory safe at our Sun Prairie shop and ship it to your people, locations, and events whenever you need it.

Sound familiar?

Small reorders cost more, and boxes of shirts don't belong in your office.

✗ Small-batch prices

Reordering a few pieces at a time means losing the price break you get on bulk runs.

✗ Closets full of boxes

Leftover shirts and swag take up office space, and nobody knows what sizes are left.

✗ Shipping is a hassle

Packing orders for new hires, remote staff, and events pulls your team away from real work.

How the program helps

Bulk pricing

Order the full run once and get the lower per-piece price, then draw from stock as needed.

No storage headaches

Your goods are counted by style, color, and size and stored on labeled shelves in our shop.

Ships to anyone, anywhere

Send single items to employees or full drops to a location or event.

Branded company store

Give your team an online store to order from. Stocked items check out at \$0.

Made on demand

Slow sizes and extras are printed or embroidered per order with your approved art, so there's no dead stock.

You own it, we track it

You buy the inventory up front and own it. We send regular inventory reports and let you know when it's time to reorder.
